

Aldi Shopping Guide

A straightforward guide to shopping at Aldi, focusing on the quirks such as the cart rental system, bringing reusable bags, and self-bagging, aiming to simplify the shopping experience at this grocery store.

Step 1: **Carry Change**

Ensure you have a quarter with you before leaving for Aldi. This quarter is used to rent a grocery cart which you will retrieve when you return the cart.

Step 2: **Reusable Bags**

Bring your own reusable shopping bags to carry your groceries, as this is not provided by Aldi.

Step 3: **Efficient Shopping**

Shop as usual, but enjoy less decision fatigue due to limited options for each product, making the selection process quicker and easier.

Step 4: **Checkout**

Proceed to the checkout area where self-checkout is standard. Have your payment ready and bag your groceries using the bags you brought with you.

Step 5: **Return Cart**

Once done, return your shopping cart to the designated area to retrieve your quarter.

General Notes

No Fresh Bakery

Keep in mind that Aldi does not have a fresh bakery section, so you may need to plan accordingly for any bakery goods.
